❖ Career Objective:

- To be a leading researcher and developer in the field of computer science, with special focus on various disciplines of Artificial Intelligence, Business Intelligence and Data Science.
- Actually my primary aim is to develop something which can be consume and use by the world like JQuery etc. We are just learning and using the technologies that have been developed by others.
- But most importantly, I am trying hard to gain some priceless experience by working with esteemed organizations which will be very helpful for me in achieving my targets.

❖ Work Experience:

Analyst Programmer

[August 2014–present]

At **Centegy Technologies** (<http://centegytechnologies.com/>)

- Add new modules and functionalities by writing complete backend code using **Java**, **SQL**, **JSP** and **JSTL** for a web-based insurance application.
- Create, enhance and customize UI and UX with JavaScript, **jQuery** and **jQuery UI**.
- Handling cross-browser behavior of the application.
- Learn and implement business processes involved insurance cycle.
- Developed release management and obfuscation process
- Promoted to the position of analyst programmer from the position of programmer.

Php Developer

[December 2014–July 2015]

At **Salsoft Technologies** (<http://www.salsoft.net/>)

- My job includes project planning, database design, integration of application-design layout, code optimization and performance improvement after development.
- In this very short span of time, I've developed a number of **administration panels** and **APIs** for **Android** and **iPhone** applications. Many of them are available on iTunes and Google play store.
- With some of my seniors I have extended some **codeigniter** core classes to make them work according to our requirements.

Web Developer

[December 2012–April 2013]

At **TRANDTS (<http://www.trandts.com/>)**

- Worked on web applications for various national, international and government organizations with a highly skilled team.
- The platforms on which I usually work were **ASP.NET Web forms, ASP.NET MVC**, DevExpress etc.
- I've worked with some JavaScript libraries like JQuery, Underscore, and Backbone etc., to customize the look of rendered HTML.

Free Lancing

[Sept 2011– Sept 2011]

- I've worked with one of my relative who provides me different jobs.
- The tasks that I generally got from him includes
 - Excel spread sheets with VBA Controls.
 - Content Writing like essays, reports, assumptions etc.
 - .NET Applications.
 - Numerical problems that are related to electronics, networking, Automata theory etc.
 - Article writing work that include various ethical issues and technical researches.

Instructor

[June 2011 – Oct 2012]

At **Technomen Institute of Computer Science and Engineering.**

- I taught Microsoft Office, web designing and development tools and programming languages.
- I've also attended various other courses that this institute offers like Microsoft Project, AutoCAD, Wireless Communication, Mobile Repairing and many courses related to electronics.

Web Designing Instructor

[Jan 2011 – June 2011]

At **Pro-Active Career Development Center.**

- Taught different web designing tools which includes
 - Adobe Photoshop and Flash.
 - Dreamweaver.
 - ASP classic.
- Manage class schedules.
- This job helps me a lot to improve my communication skills.

Lab Assistant

[June 2009 – June 2011]

At **Technomen Institute of Computer Science and Engineering.**

- I've worked with professionals who were engaged with different industries. It helps me to know about the trends of market.
- I've also performed some administrative jobs related to public relations which give me lots of confidence and negotiation ability.
- Also teach different softwares which help me to keep them fresh in my mind.

❖ Qualification and Certificates:

Web Engineering using PHP, MySql & Codeigniter [Nov 2014 – March 2015]

From Sir Syed University of Engineering and Technology (CEP).

Microsoft Certified Specialist (70-480) [March 19, 2013]

From Microsoft.

Main content of this certification is the development of Windows 8 Apps using HTML5, CSS3 and JavaScript.

HTML5 Mobile & Real-Time Web App Development [Nov 2012 – March 2013]

From Sir Syed University of Engineering and Technology (CEP).

This course helped me to clear a Microsoft certification.

Learn various JS libraries like Angular, Underscore, Backbone, JQuery, JQuery Mobile etc., Semantics of HTML5 and CSS3.

Web-Based Client App Development using ASP.Net [July 2012 – Oct 2012]

From Sir Syed University of Engineering and Technology (CEP).

Certificate in Information Technology (C.I.T). [Jun 2008 – Sep 2008]

From Technomen Institute of Computer Science and Engineering.

Certificate Issued from Skill Development Council (SDC).

Certificate in Graphic Designing. [Aug 2007 – Nov 2007]

From Intra Digit.

Certificate issued from All Pakistan National Academy (APNA).

- I was credited 84% marks.

Certificate in Web Development.

From Technomen Institute of Computer Science and Engineering.

- With Visual Basic 6.0.

- Attended a workshop on **Research Methodology** organized by **Quality Enhancement Cell, FUUAST.**
- Organized and attended a Workshop on **Mobile Game Development with Flash** at **Department of Computer Science, FUUAST.**

- Attended a 15-days workshop on **MatLab** organized by **The Social Bond Welfare Organization** and **Department of Computer Science, FUUAST**.
- Participated in the following competitions:
 - Speed Programming Competition in **ITEC 2012** at **NED University**.
 - Programming Competition in **PROCOM.net 2012** at **FAST-NUCES**.
 - Speed Mobile Application Development in **Developers Day** at **FAST-NUCES**.

❖ Education:

Bachelor of Studies in Computer Science (BSCS). [2010 - 2013]

From **Federal Urdu University, Karachi.**

- Secured 3.51 CGPA.

Higher Secondary School Certificate. [2007 – 2009]

From **P.E.C.H.S Foundation College, Karachi.**

- Pre-Engineering.

Matriculation. [2006 – 2007]

From **Cambridge Public School, Karachi.**

Hifz ul Quran

From **Madrassa tul Khair(Al-Khair Education Foundation).**

❖ Interests and Activities:

- Programming.
- Teaching.
- Brain Storming.
- Exploring new gadgets.

❖ Personal Bio:

Father's Name: Naveed Raza Hashmi

Date of Birth: Jan 04, 1993

Domicile: Karachi.
